RFID TagUp Service

Scan

Slow TagUps Cause Inventory Distortion:

Our RFID TagUp service solves that problem.

8 Key Advantages of ADASA:

- Overnight...** it's best to TagUp all inventory overnight
- Swarm...** lots of encoders and taggers to finish by morning
- Speed...** Scan, Encode, Apply process is fast and reliable
- Rental...** there is nothing to purchase except tags and service
- Labor...** we can provide the labor if you want us to
- Setup...** unique SGTIN numbers without using store's network
- Inlays...** if you prefer, inlays cost less than printed RFID tags
- Mobile...** for tagging anywhere in stores or distribution
